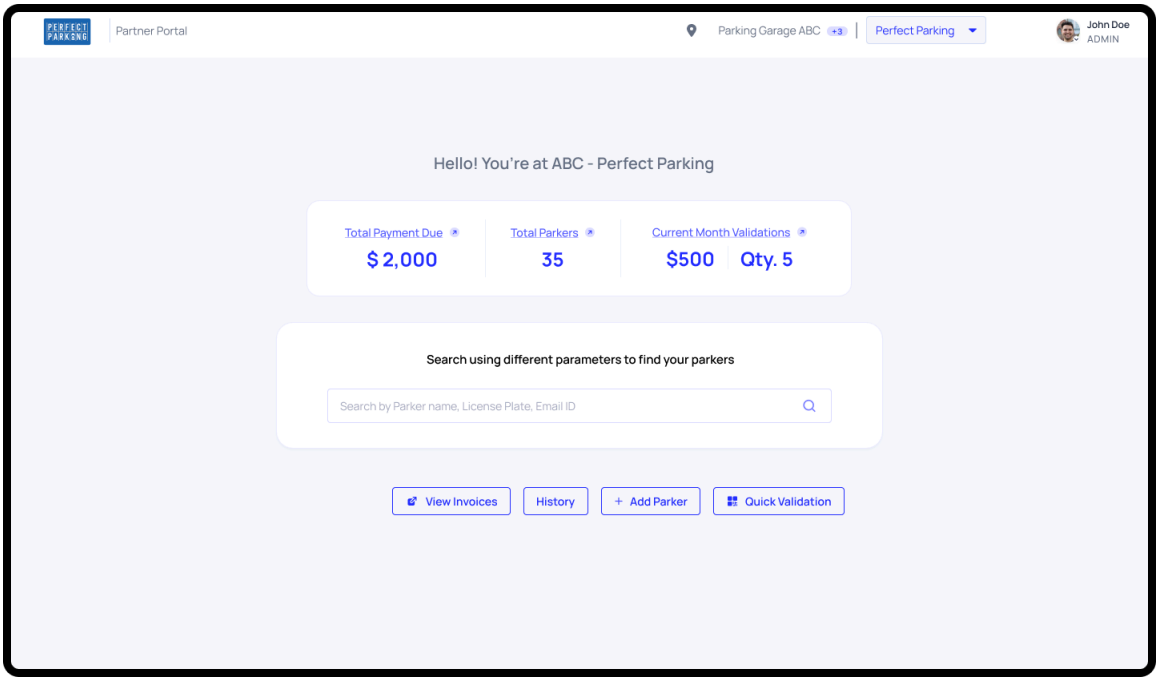
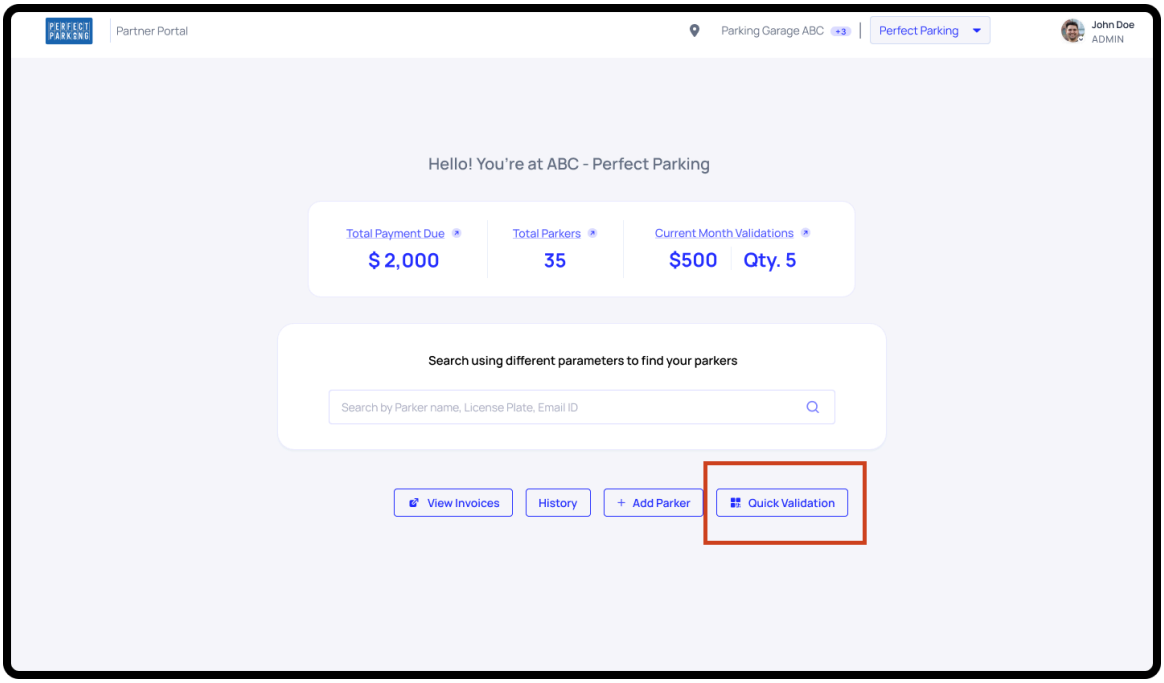
Hotel Validation Flows

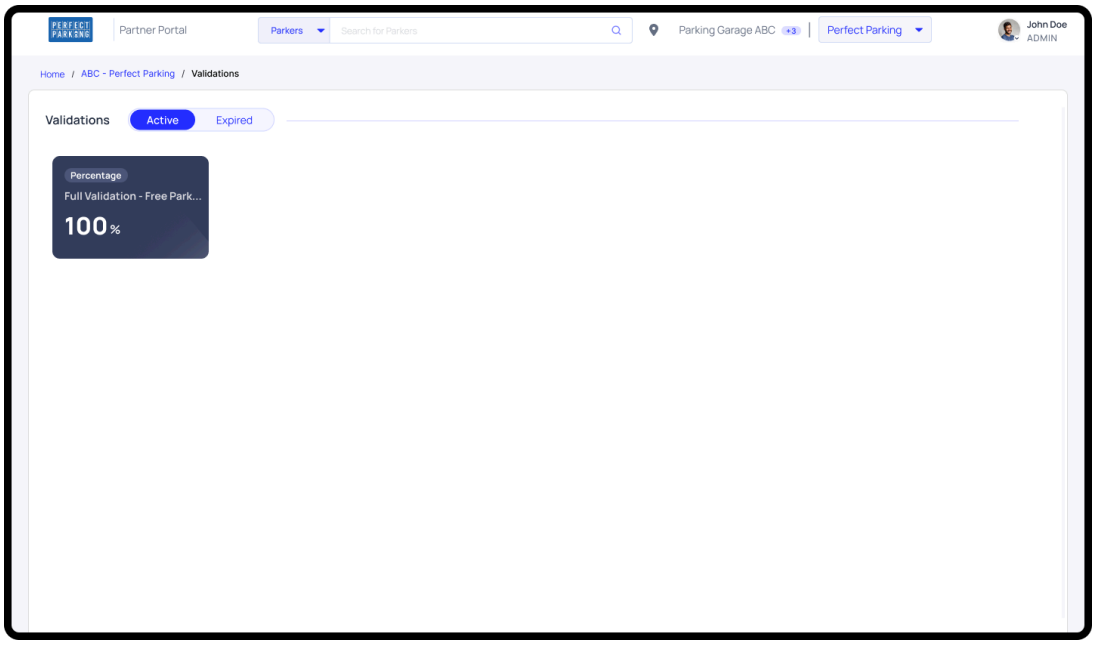
1. Login to Self Serve Portal:



2. Click on 'Quick Validation' to assign validation to the Parker

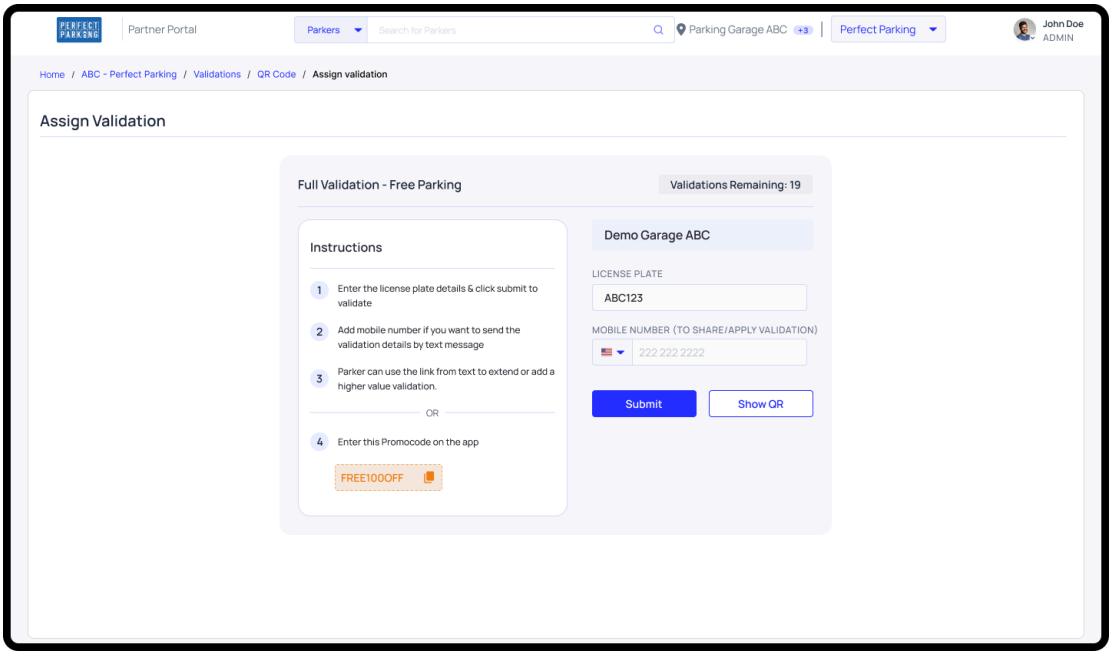


3. Select the Validation

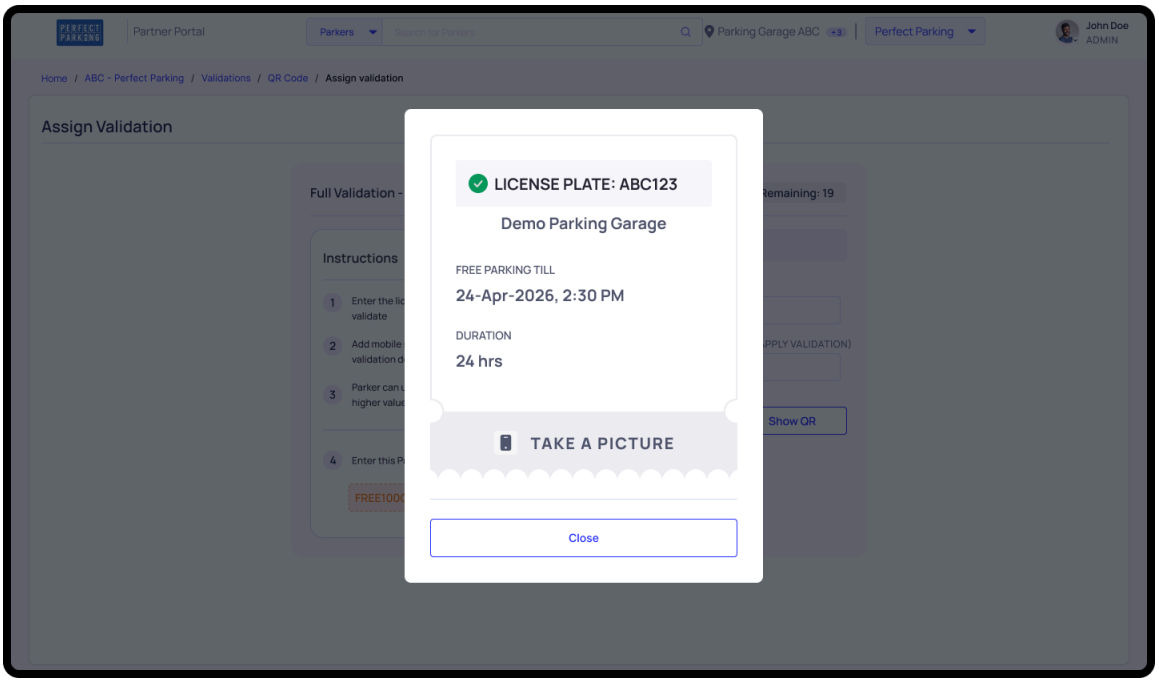


4. Flow 1 - Validation via License Plate

4.1 If the parker has an ongoing session, you can enter the License Plate → Click on Submit. The validation automatically gets applied to the session.

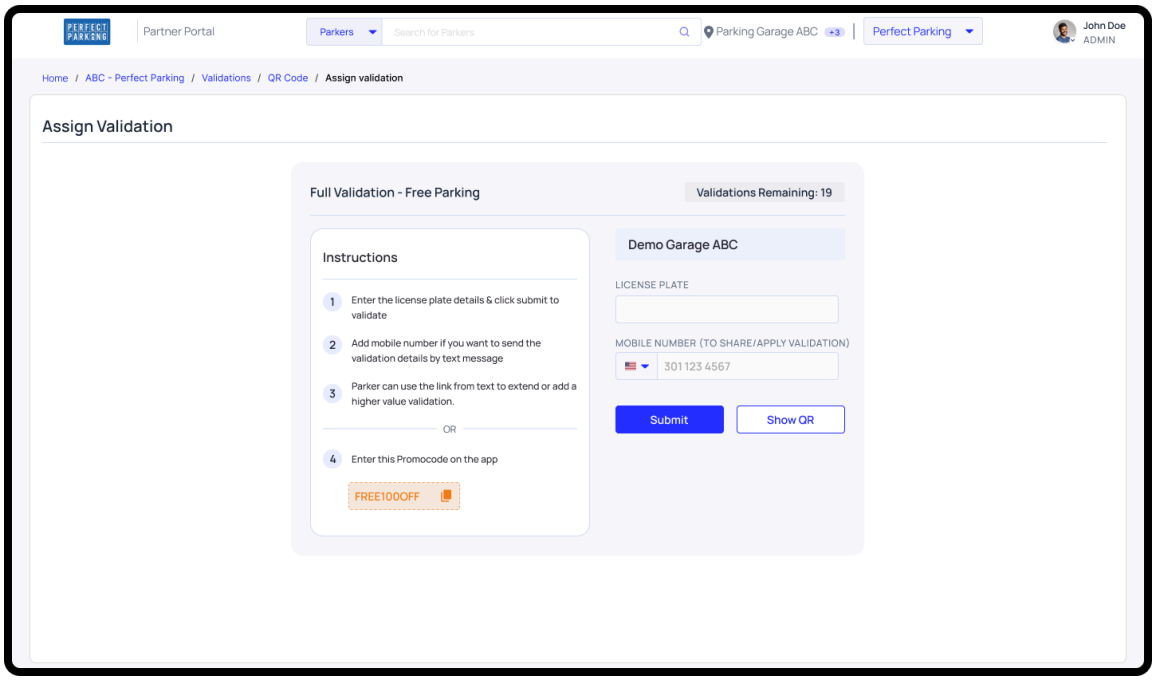


4.2 Alternatively, if the parker does not have an ongoing session, you can enter the License Plate → Click on Submit to start their session. Parker clicks a picture of the below pop-up.

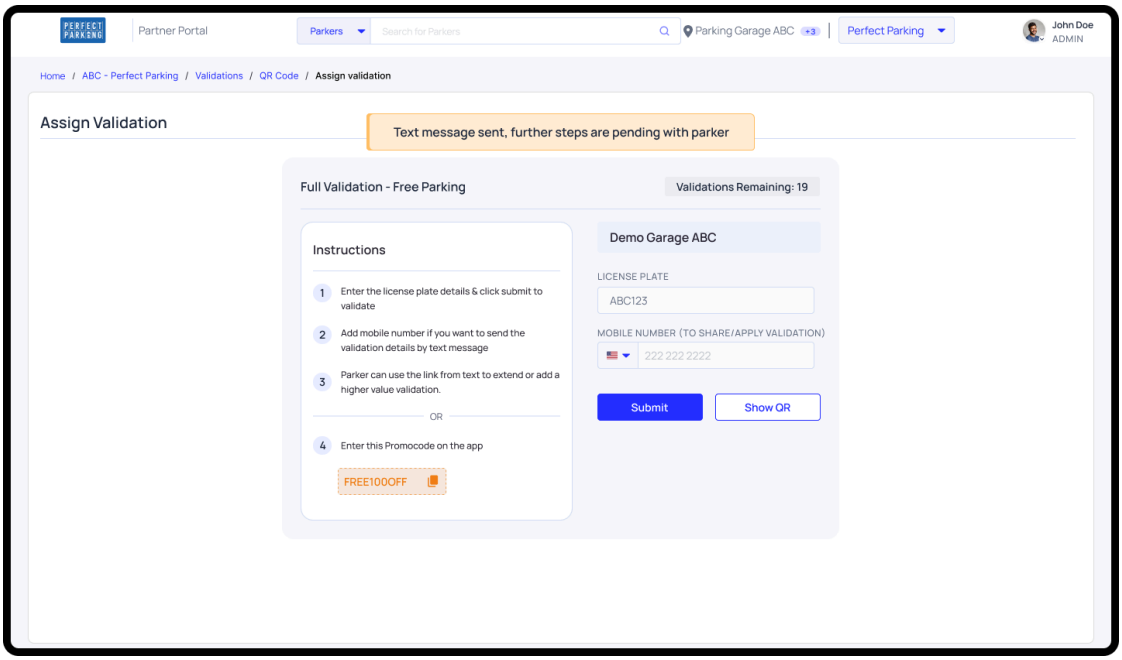


5. Flow 2 - Validation via Mobile Number

5.1 If a parker has an ongoing session, enter the Mobile Number → Click on Submit. Validation automatically gets applied to the ongoing session.

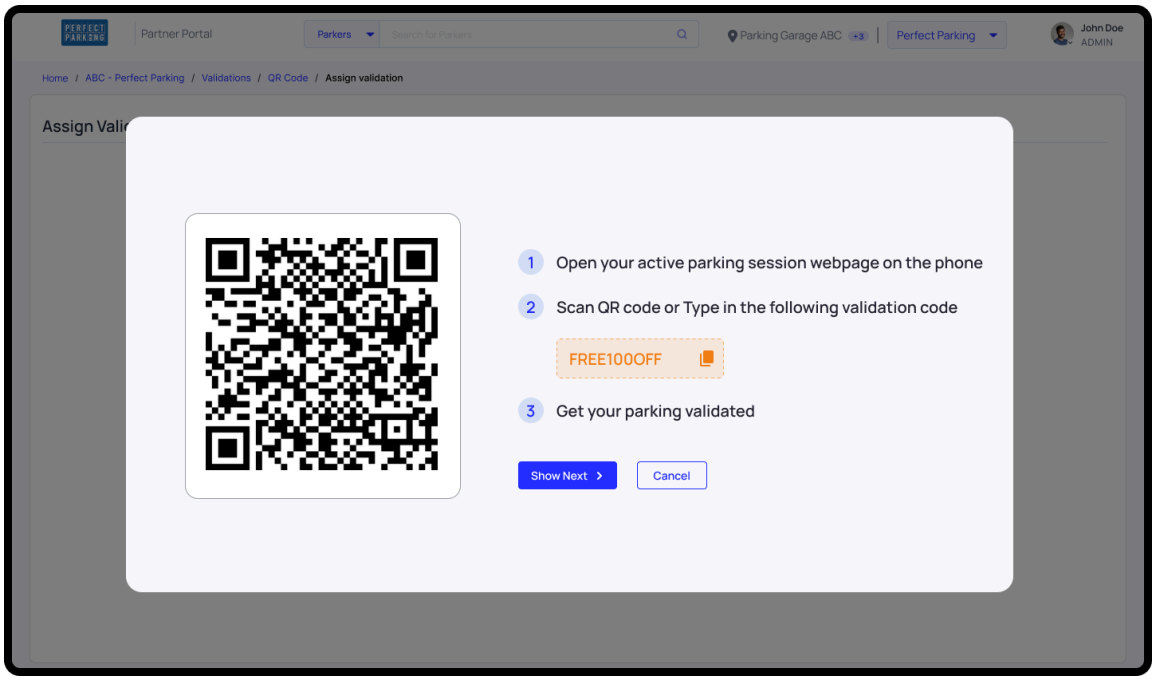


5.2 If a parker doesn't have an ongoing session, enter the Mobile Number → Click on Submit. Parker will receive a text message with a link to start a validated session.



6. Flow 3 - Validation via Show QR

Click on Show QR. If the parker has an ongoing session, they can scan the QR; it will lead them to their ongoing session & validation is automatically applied. If a parker doesn't have an ongoing session, they can scan the QR to create a validated session.



For the Parker

The parker can get their session validated at the employee desk. The employee either directly validates their session, or the parker receives validation QR code via text which they can show at the POS machine at the exit to validate parking.

Text SMS of Validation QR Link

Validation QR to show at exit
